

Meat Processing Belt

TT122 Light Blue

The TT122 Light Blue belt is a versatile meat processing belt with large adoption in the poultry industry, as the light blue color is an industry standard. Designed to exhibit increased edge wear resistance, the TT122 Light Blue belt serves as an excellent pin-drive belt, which is commonly used in detection and processing poultry equipment.

This versatile meat processing belt offers the following:

- Improved hygiene through the double-sided urethane coating and glossy cover
- Resistance to stringing to avoid contamination
- Edge-sealable design to meet the sanitation requirements of meat and poultry plants
- Suitability for small pulleys to facilitate tighter transfers
- Increased wear resistance to withstand abrasive contact from scrapers or other devices
- Trough-friendly, anti-static belt design

Meat Processing Belt TT122 Light Blue

Cross-section

Technical key data

Thickness		Tensile force for 1% elongation (relaxed)		Color of conveying side
mm	inch	N/mm	lbs/inch	
1.5	0.06	7.0	40	Light Blue

Product Construction / Design	
Conveying side material	Thermoplastic polyurethane (TPU)
Conveying side surface	Glossy
Conveying side property	Medium-adhesive
Conveying side color	Light blue
Traction layer (material)	Polyester (PET)
Number of Fabrics	2
Pulley side material	Thermoplastic polyurethane (TPU)
Pulley side surface	Glossy
Pulley side property	Medium-adhesive
Pulley side color	Light blue
